

Evolution resubmission (Manuscript ID: 16-0061):

The evolution of mating type switching

Zena Hadjivasiliou, Andrew Pomiankowski and Bram Kuijper

Dear Dr Azevedo,

Please find attached our revised MS concerning the evolution of stochastic mating type switching in isogamous eukaryotes.

Our MS received two reviews along with your own comments. We have made changes accordingly and believe that the MS has improved substantially as a result. We attach our point-by-point response to the reviewers' and your own comments, and hope that you now find the MS suitable for publication in *Evolution*.

Yours sincerely,

Zena Hadjivasiliou, Andrew Pomiankowski and Bram Kuijper
